

# Scarborough Malvern Light Rail Transit (LRT)

## Notice of Completion of the Environmental Project Report

### Transit Project Overview

The Toronto Transit Commission (TTC) and the City of Toronto have completed an Environmental Project Report (EPR) for the fifteen kilometre Scarborough Malvern Light Rail Transit (LRT) which would connect Kennedy Subway Station with north-eastern Scarborough.

The Scarborough Malvern LRT would begin at Kennedy Subway Station, travel east along Eglinton Avenue to Kingston Road, connect with the new Kingston Road Transit Improvement Study area, and turn north-east on Kingston Road to Morningside Avenue. It would proceed north on Morningside Avenue – crossing Highland Creek on a new LRT only structure adjacent to the existing bridge – to the University of Toronto (Scarborough Campus) via Ellesmere Road and Military Trail and continue north on Morningside Avenue to Sheppard Avenue East. At that point it would connect with the Sheppard Avenue East LRT. The Kennedy Subway Station redesign study will be the subject of a separate report.

The Scarborough Malvern LRT would provide modern, accessible, comfortable light rail transit service along three of Scarborough's major roads, serving the adjacent residential and business communities and major institutions including the University of Toronto Scarborough Campus and Centennial College Ellesmere Campus.

### The Process

The Scarborough Malvern LRT Environmental Project Report was completed in accordance with Ontario Regulation 231/08, Transit Projects and Greater Toronto Transportation Authority Undertakings. Its environmental impact was assessed in accordance with the Transit Project Assessment Process. The EPR will be

available for review starting on October 19, 2009 for a 30 day review period on the project website ([toronto.ca/transitcity](http://toronto.ca/transitcity) see: Scarb. Malvern LRT) and at the locations listed below.

The Minister of the Environment has authority to require further consideration of the transit project, or to impose conditions on it if the Minister is of the opinion that:

- The transit project may have a negative impact on a matter of provincial importance that relates to the natural environment or has cultural heritage value or interest; or,
- The transit project may have a negative impact on a constitutionally protected Aboriginal or treaty right

Before exercising the authority referred to above, the Minister is required to consider any written objections to the transit project received within 30 days after the Notice of Completion is published. Interested persons are encouraged to review the EPR and provide comments by November 18, 2009. Comments or concerns should be directed to the project contacts listed below.

If you have unresolved concerns, you may submit an objection to this transit project to the Minister of the Environment no later than November 18, 2009:

Honourable John Gerretsen  
135 St. Clair Avenue West, 12th Floor, Toronto, ON, M4V 1P5  
[minister.moe@ontario.ca](mailto:minister.moe@ontario.ca)

A copy of your objection should also be copied to the TTC project manager.

### Locations for 30-day Review Period

**City Clerks Office Toronto City Hall**  
100 Queen Street West, 10th Floor West Tower
